COUNTRIES

Researchers need
resources to IMPROVE &
ACCELERATE their drug
discovery projects

Contract Research Organizations

Contract Research Organizations (CROs) play a critical role in drug discovery and development in academia and biotechs

- CROs have assays and expertise relevant to neurodegenerative disease
- AND can also have pharmaceutical development expertise

AlzDiscovery.org/ACCESS

ADDF ACCESS SERVICES

- A network of CROs and consultants with CNS drug discovery expertise
- An expert concierge service to match scientists with the right CROs, solicit multiple competitive quotes, and manage projects
- A library of educational resources, including a guide to CNS drug discovery and development

CATEGORIES

Experimental Services

Pharmacology & Toxicology

- [Histology & Pathology](#)
- [Immunoassay](#)
- [Toxicology](#)
- [Endocrinology assay](#)
- [Histamine Release Assay](#)
- [Systems Pharmacology](#)
- [Human functional tissue assays](#)
- [Companion Diagnostics](#)
- [Comparative Pharmacology](#)
- [Early Life Stage Toxicity Test](#)

EXPERIMENT

- Preclinical PK/PD Studies

SECTOR

- Commercial
- N/A

CERTIFIED/QUALIFIED

- AAALAC
- GLP
- FDA Inspected
- DEA Schedule II
- DEA Schedule III
- USDA
- CGMP

COUNTRY

DIVERSITY

- 

Eurofins Pharma Discovery Services

United States of America

✔ 36 Orders ★ 100% Positive

Services: Bioinformatics, Human Tumor Xenograft Models, LC-MS, Cell-Based Compound Screening, Cytotoxicity Assays

REQUEST A QUOTE
- 

TGA Sciences, Inc.

Medford, Massachusetts, United States of America

✔ 6 Orders ★ 100% Positive

Services: FACS, ADCC Assay, Cytokine Storm Testing, Cell Proliferation Assays, Custom Cell-Based Assays

REQUEST A QUOTE
- 

Charles River - Discovery

United States of America

✔ 4 Orders ★ 100% Positive

Services: Statistical Analysis, Protein Crystallization, Flow Cytometry, Cell-Based Compound Screening, In Vitro Immunotoxicity Testing

REQUEST A QUOTE
- 

Sekisui XenoTech, LLC

Lenexa, Kansas, United States of America

✔ 3 Orders ★ 100% Positive

Services: Immunohistochemistry (IHC), Peptide Synthesis Services, LC-MS, NMR, LC-MS/MS

REQUEST A QUOTE
- 

BTS Research

San Diego, California, United States of America

✔ 3 Orders

Services: Human Tumor Xenograft Models, Custom Cell-Based Assays

REQUEST A QUOTE
- 

Neuro-Zone srl

Milan, Lombardy, Italy

✔ 3 Orders

Services: Immunocytochemistry, ELISA, Signaling Pathway Analysis, CDC Assay, Protein Purification

REQUEST A QUOTE
- 

Comparative Biosciences, Inc.

Sunnyvale, CA, United States of America

For more results try searching for [Pharmacology & Toxicology](#) across all experimental services.

Pharmacology & Toxicology

Study drug modes of action and assess adverse effects.

SCIENCE EXCHANGE GUARANTEE

Science Exchange is the fastest and safest way to order scientific services. All providers have passed a qualification process and agreed to pre-negotiated legal terms that protect your confidentiality and IP.

Brains On-Line

South San Francisco California

Our mission at Brains On-Line is to provide preclinical research services to facilitate the development of new drugs that target the central nervous system.

Brains On-Line benefits from its intimate connections with academia, as well as with several associated contract research organizations (CRO). Using our expertise, we aim to give full insight in the possibilities of your compound.

Services Ratings Endorsements

Animal Behavior Studies

Price on request

- Anxiety/Depression
- Forced Swim Test
- Tail Suspension Test
- Light/Dark Box
- Cognition
- Novel Object Recognition (Natural Forgetting, Scopolamine -Induced Deficits, Phencyclidine Induced Deficits)
- Contextual Fear Conditioning
- Motor Activity/Coordination
- Home Cage Locomotor Activity
- Open Field Test
- Rotorod
- Grip... [Show more »](#)

REQUEST QUOTE

Animal Surgery

Price on request

- Jugular vein cannulation
- Femoral vein cannulation
- Probe/sensor implantation brain
- Probe implantation cerebral spinal fluid
- Probe implantation bone

Supplier Details:

Type: Partnership
Size: 11-50 employees

Lab Members:

Arash Rassoulpour

GOALS FOR ADDF ACCESS

- Partnership with Science Exchange allows increased power and service
- Significant savings in cost and time for sponsors and CROs
- Efficient outsourcing to increase the value of drug discovery programs to development partners

What We Fund

- Guide to entire drug discovery & development process
- Papers, videos & more explaining difficult aspects of drug development
- Talks from ADDF's annual Drug Discovery for Neurodegenerative Disease Meeting
