# SUMMARY:

## Advantages and disadvantages of the database

- Advantages:
  - very inexpensive platform when we joined back in 2012;
  - simple to use;
- Disadvantages:
  - PDF issue – Blank pdfs.
  - System overload at deadlines;
  - Customer service: response time issues;
  - No Automations- everything is a manual move from the admin

## How the platform is utilized:

- Applications;
- Reviews;
- Reports; just recently began collecting online – works similar to an application with deadlines
- Not used for payment processing

## Other databases considered, and why Community Force was selected:

- Too long ago for me to remember the other databases considered;
- We selected Community Force because it was in our budget and offered features we needed

## Unique elements of the database that you find particularly useful to the foundation's grantmaking activities:

- Push reviewers scores from Prelim to Review stage
- Applications are identified by applicant and institution
- Clone applications
- Hide various portions of the application from reviewer/applicant/admin
