Grantee Selection Strategies and the SCOTUS Race-Conscious Admissions Decision

Amy Addams
Director, Student Affairs Alignment and Holistic Review
AAMC

November 29, 2023
Supreme Court Decision on Harvard and UNC Admissions

• The decision governs undergraduate, graduate, and professional school admissions

• The court
  • invalidated the consideration of an applicant’s racial classification (e.g., a checked box) while
  • upholding the consideration of an applicant’s self-expressed lived experiences related to their racial or ethnic background (e.g., essay responses)
Supreme Court Majority Opinion

• “[N]othing in this opinion should be construed as prohibiting universities from considering an applicant’s discussion of how race affected his or her life be it through discrimination, inspiration, or otherwise.”

• The “touchstone of an individual’s identity [must be with respect to] challenges bested, skills built, or lessons learned”—not “the color of their skin.”
Dept. of Justice/Dept. of Education Guidance

“[I]nstitutions of higher education may continue to articulate missions and goals tied to student body diversity and may use all legally permissible methods to achieve that diversity…schools can continue to use strategies that remove barriers and expand opportunity for all.

• Targeted outreach, recruitment, and pathway programs
• Collection of demographic data
• Evaluation of admissions [and selection] policies
• Yield and retention strategies and programs
AAMC Holistic Review in Admissions Framework™

- Emphasizes the importance of giving individualized consideration
- Provides operational guidance
- Applies a balanced approach
holistic review

...a flexible, individualized way of assessing an applicant’s capabilities, by which balanced consideration is given to experiences, attributes, and academic metrics (EAM) and, when considered in combination, how the individual might contribute value as a medical or health care student and future physician or health care professional.

CORE PRINCIPLE 1

In a holistic selection process, criteria are

Broad-based

Linked to **institutional mission and goals**

Promote **diversity and inclusion** as essential to excellence
CORE PRINCIPLE 2

A balance of experiences, attributes, and academic metrics (EAM) is

Used to assess applicants with the intent of creating a richly diverse interview and selection pool

Applied equitably across the entire candidate pool

Supported by local performance data linked to a likelihood of success as a medical student at that school
Experiences, Attributes, and Academic Metrics (EAM) Tool

EXPERIENCES
- Life circumstances and chosen activities

ATTRIBUTES
- Skills, abilities, and characteristics

ACADEMIC METRICS
- Academic components
CORE PRINCIPLE 3

Admissions staff and committee members

*Give individualized consideration* to how each applicant may contribute to the learning environment and practice as a physician

*Weigh and balance* the range of criteria needed in a class to achieve the outcomes desired by the institution
Institutional Mission and Goals

Effective Practices: Groundwork

(Re)Assess, (re)affirm, and clearly communicate who you are, what your mission and goals are, and what you aim to achieve through your grant program(s).

Ground your review and acceptance criteria in your mission, goals, and research or workforce needs.

Develop shared definitions for these criteria.
Effective Practices: Groundwork

- Develop/affirm and communicate a clear, shared definition of diversity and its relationship with your mission.

- Ensure your public facing materials clearly convey your mission, goals, definition of diversity, and review criteria.

- Revise or design application and questions to yield the information you seek about applicants’ experiences, attributes, and motivations in addition to technical information.
Effective Practices: Review

Use a rubric to assess experiences, attributes, and metrics.

Train reviewers on the mission, goals, process, implicit bias, and how to use the rubric.

Have reviewers consider the context of the applicant.

Use an asset or strengths-based lens when reviewing applications.
Effective Practices: Administration and evaluation

Review outreach, dissemination, and recruitment strategies and platforms to determine whether they’re attracting the applicants you seek.

Regularly evaluate your processes and practices to assess the effectiveness, value, and necessity of policies and criteria.
Key Takeaways

• The Harvard/UNC decision applies to higher education admissions and what colleges and universities can consider.

• There is no one-size-fits-all approach to holistic review.

• Lean toward racial and ethnic group inclusivity, not exclusivity in grants, fellowships, DEI initiatives, and hiring.

• The DOJ/DOE guidance provides good grounding, even outside of colleges and universities.

Leila E. Harrison, PhD, MA, MEd

Vice Dean for Admissions, Student Affairs, and Alumni Engagement

Chair, AAMC Committee on Admissions (Beginning Nov 2023)
Mission
To solve problems in challenging health care environments across the state of Washington

Vision
Washingtonians living longer, better
Our Goals

Increase the number of physicians serving in Washington State’s workforce.

Attract students interested in taking care of patients in challenging health care environments, including rural areas and vulnerable populations.

Be informed by the communities and populations we serve to enhance our educational, research and clinical missions.
To Receive a Secondary Application

Meet 3 of 4 “from Washington” ties or legal WA residency

- Born in WA
- WA childhood address
- Graduated from a WA High School
- Parent/Guardian lives in WA

Washington Connections

Balancing Academic Metrics

AMP programmed to check
Published on website

Once Secondary is Submitted:

- All MCAT scores and GPAs are REMOVED from the application
- No human ever sees these academic metrics!

Enrolled Member of a Federally Recognized Tribe

Legally can consider enrolled Tribal membership

Experiences w/ Rural or Underserved Communities

Asked to share these experiences

Alignment with our Mission

Asked how they feel they align with our mission

Commitment to Washington

Asked to share the years they have lived in Washington and their commitment to serving Washington as a physician

Secondary Application
Applicant Backgrounds

- First-Generation College Graduate
- Enrolled Member of Federally Recognized Tribe
- Underserved & Rural
- Low SES Background
- Military Service
- Grew Up in Rural Community
Experience w/ Rural & Underserved Communities

Experience Outside the Classroom

Connections & Commitment to WA

Clinical Exposure

Service (non-health care)
